### Total Cost of Occupancy (TCO)

Create a TCO reporting requirement -- agencies or DOA report to Building Commission or Legislature on the total cost of occupancy (TCO) of state facilities based on agency and within agency by institution or building. Require that by July 2009 agencies report on TCO based on institutions and buildings. Require DOA to summarize reports to provide overall TCO report and recommendations by agency on target TCOs.

Hi Jeff - I put your question on "target TCO " to Peter Maternowski in the Division of State Facilities and got the following reply.....sounds like they want the ability to set target with or without modifications -- let me know if that is workable.

"TCO means the actual facility cost. It includes all facility related costs for building operations, maintenance and debt service. The 'TCO target' is a goal for a cost per sq ft for a facility. A goal could be met through capital projects, but other means could be used, e.g. more efficient provision of maintenance services, lower utility consumption through conservation efforts etc."

Still working on BB0349....I'm trying to encourage them to work it out through an MOU. I'll let you know what they decide.

Thx - Jenny

Jennifer,

Confirming our phone conversation of January 5:

1. BB0352- I will send you a new version of the previously drafted proposal to authorize the sale of state properties. It is LRB-1513. The other attorneys will review it when it comes out and we may send through a revision if needed.

2. BB0350- I have entered the proposal concerning reports on the cost of occupancy of state facilities. You will confirm whether the "Target TCO" means the desired cost of occupancy (1) without modifications; (2) if recommended modifications are made (such as new windows, insulation, etc.). If the latter, you might want to indicate in the report a cost estimate for the modifications so you could figure the approximate number of years for the cost of modifications to pay off. This draft is LRB-1512 and is on hold.

3. BB0349- Transfer of physical plant employees at heating/cooling/power plants to DOA. You will confirm whether this proposal involves only DHFS or some other agencies (and if so, which ones). This draft is not entered because we don't know who will be drafting it until the scope of the draft is known.

On this draft:

- 1) Please change the reporting requirement to annual instead of biennial,
- 2) Total cost of occupancy would also include appropriate overhead apportioned between buildings.
- 3) Please also include some language to allow DOA to exempt some facilities, such as small DNR structures, from the reporting requirement. There may well be some buildings/facilities that are not worth reporting on because the TCO is so minimal.

Thanks

Jenny,

Authority construction projects estimated to cost more than \$100,000 are subject to approval of the building commission under s. 13.48 (10), stats. That's why I included them in the draft. However, I recognize that these projects do not generally appear in the authorized state building program. I will exclude them on the next redraft.

Two more changes:

Please limit the reporting to those facilities the construction of which must be approved by the Building Commission. (i.e., not the authorities).

Add a statement that the format of agency reports shall be in a form prescribed by DOA.

Jenny,

I believe we had discussed moving up the date on the TCO reporting. The draft has December 1 2007 as the date of the first report. Is it possible to revise it to December 1 2006. We would like to be able to use the data in the development of the 2007-09 Capital Budget.

DOA:.....Kraus, BB0350 - Reports on cost of occupancy of state facilities

FOR 2005-07 BUDGET -- NOT READY FOR INTRODUCTION

Do Not Gen

1 AN ACT relating to: reports concerning the cost of occupancy of state facilities.

*Analysis by the Legislative Reference Bureau*

**STATE GOVERNMENT**

**OTHER STATE GOVERNMENT**

This bill directs state agencies to report annually to DOA concerning the total cost of occupancy of each state-owned building, structure, or facility under the jurisdiction of the agency, excluding public highways and bridges. The report must be made in a format prescribed by DOA. The cost of occupancy must also be computed in a manner prescribed by DOA, and must include the direct cost of operation and maintenance, administrative costs incurred by an agency that are attributable to the building, structure, or facility, and any debt service costs associated with the building, structure, or facility. Beginning in 2009, the bill provides that if a building, structure or facility is a part of an institution, the report must include the total cost of occupancy of all buildings, structures, and facilities within the institution. The bill permits DOA to exempt an agency from compliance with the reporting requirement with respect to a building, structure, or facility that DOA determines to have a minimal total cost of occupancy.

The bill also provides that DOA must compile the information received from each agency and annually transmit a consolidated report on the total cost of occupancy of all buildings, structures, and facilities owned by the state, itemized for each building, structure, and facility, to the Building Commission. The report must include, for each building, structure, and facility, the recommendations of DOA concerning the desired total cost of occupancy for that building, structure, or facility.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

1        **SECTION 1.** 16.891 of the statutes is created to read:

2        **16.891 Reports on cost of occupancy of state facilities.** (1) In this section:

3        (a) "Agency" has the meaning given in s. 16.70 (1e).

4        (b) "Total cost of occupancy" means the cost to operate and maintain the  
5        physical plant of a building, structure, or facility, including administrative costs of  
6        an agency attributable to operation and maintenance of a building, structure, or  
7        facility, together with any debt service costs associated with the building, structure,  
8        or facility, computed in the manner prescribed by the department.

9        (2) Except as provided in sub. (4), each agency shall report to the department  
10       no later than October 1 of each year concerning the total cost of occupancy of each  
11       state-owned building, structure, and facility, excluding public highways and  
12       bridges, under the jurisdiction of the agency for the preceding fiscal year. The report  
13       shall be made in a format prescribed by the department. Beginning in 2009, if a  
14       building, structure, or facility is a part of an institution, the agency having  
15       jurisdiction of the institution shall also include in its report the total cost of  
16       occupancy of all of the buildings, structures, and facilities within the institution.

17       (3) No later than December 1 of each year, the department shall compile the  
18       information received under sub. (2) and transmit a consolidated report to the  
19       building commission on the total cost of occupancy of all buildings, structures, and  
20       facilities included in the reports filed under sub. (2), itemized for each building,  
21       structure, and facility. The report shall include, for each building, structure, or

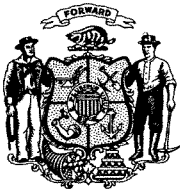

1 facility, the recommendations of the department concerning the desired total cost of  
2 occupancy for that building, structure, or facility.

3 (4) The department may exempt an agency from compliance with the reporting  
4 requirement under sub. (2) with respect to any building, structure, or facility that  
5 the department determines to have a minimal total cost of occupancy.
